## The Incredibly Green Home Completed

October 11th, 2008 Chevy Chase, MD

Construction of The Incredibly Green Home of Chevy Chase has been completed. The home is a showcase model home of the latest high end and affordable green products, technologies, and methods. The home is now open to the public for viewing on a daily basis, Monday through Saturday 11am to 1pm, and Sundays 1pm to 4pm.

The home was designed by Christian Gladu of the Bungalow Company of Bend, Oregon. The exterior follows in the Prairie style, popularized by Frank Lloyd Wright. The style features large overhangs, tall windows and a complex, low roof line.

A complete list of the homes' features and specifications can be found at [www.bethesdabungalows.com/incrediblygreenhome](http://www.bethesdabungalows.com/incrediblygreenhome)

The Incredibly Green Home was built by Bethesda Bungalows, an award-winning local custom home builder specializing in energy efficient Craftsman, bungalow and prairie-style homes.

The Incredibly Green Home will strive to be *LEED for Homes Platinum* certified, the highest level of achievement on the LEED scale. It will also strive to be NAHB Emerald certified using the National Green Building Standard guidelines. The home will also be Energy Star and IndoorAirPLUS certified.
